Dear Co-Chairs Frederick and Levy, and Members of the Committee,

I'm writing to express concern about the strength and longevity of the Private Forest Accord. It has come to my attention that more effort is needed to ensure that the hard work of many Oregonians- timber reps and conservationists alike- not go to waste and be rolled back. A key part of the agreement calls for the state of Oregon to get a federally approved Habitat Conservation Plan across more than 10 million acres of private forestlands. However, without a federally approved Private Forest Accord Habitat Conservation Plan by 2027, the new rules roll back entirely to the outdated standards.

Please support full funding in the Oregon Department of Fish and Wildlife's budget (HB 5009) for the Private Forest Accord Grant Program. The PFA Grant Program should be fully funded at \$20M. This reflects the state's commitment of \$10M annually to this grant program under the PFA authorizing legislation from 2022 (SB 1501). Importantly, this commitment is matched by a \$2.5M annual contribution from the timber industry, which increases to \$5M annually after federal approval of a Habitat Conservation Plan (HCP). This program invests in restoration projects across the state to conserve and protect habitat for fish and amphibians.

Thanks for your consideration,
Clea Partridge
