

Submitter: Linda Hill

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

im writing in opposition to SB 210. Oregon has one of the most secure and trusted vote-by-mail systems in the country. Switching to in-person voting would be unnecessary.

expensive, and disruptive

We dont nave the Intrastructure in ptace to handle full in-person voting, and butding that system would cost taxpayers a lot of money,

There's no evidence that our current system is broken-so why try to fock?

This bill is about polsical interference not genuine reform.

And I Dereve the point is fo brake our voting system so during the voting cycle there wal be enough issues and to call into queston the actual wiE of Oregonians:
