Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail is safe and secure. Ending our state's long running and successful vote by mail program will set a bad example and is not the right direction for the future of elections in our country.

Ending vote by mail will disenfranchise voters who are the most vulnerable, including those who are sick, disabled, elderly, students, and those who lack the economic and transportation resources to show up at a polling place. It increases chances of voter intimidation by folks who loiter outside polling locations holding guns, and voter disenfranchisement when a polling location is closed due to a threat or simply has more voters than they have the capacity to accept on election day. Keep vote by mail and let's make it national. Thank you.
