

Submitter:

Alias Smith

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Thank you Committee for your time and the labor you do for the people of Oregon.

I am a husband, business owner, gun owner, and lover of democracy. I would fight and die for democracy. I would fight and kill for democracy. The health and financial well being of Oregonians depends on a thriving, corruption free, democratic process. SB 210 is an obvious effort to diminish access to vote for poorly resourced Oregonians, both rural and urban. Vote by mail is secure, reliable, effective, and more accurately allows everyone who is registered to vote the opportunity to exercise their right to do so. I am asking politely to reject the proposals of SB 210 and invite you to know that Americans are not unaware of the coup that is taking place. Your job is to protect the sanctity of Oregon law and the rights and liberties of all residents therein. If you think one billionaire is going to uplift your family into nobility, giving you title and some land to rule, you miscalculate both their intentions and the willingness of Oregonians to repeat historical moments like the Defenestration of Prague.

Vote no on SB 210
