Measure, Appointment or Topic:

SB210

SB 210 is just another voter suppression tactic and I will not stand for it. The only aim of this bill is to disenfranchise, exclude, and suppress the public voice. States rights are not just a Southern state privilege, those who would roll back our won voter accessibility rights are welcome to take their own rhetoric and "love it or leave it", there are plenty of states in our Union that would welcome their take on public policy.

Just a brief and casual glance at voter turnout since 1993 shows that Vote By Mail provides a greater sample of the will of the public. A more curious look into the integrity of the Oregon State VBM process reveals no scandal until just last year, which is being audited and corrected by a joint DMV, Secretary of State, and Elections Division effort. All evidence given to this citizen points to simple error, not a malicious attack on a vulnerability.

SB 210 is unacceptable and Un-American. No patriot would seek to suppress their neighbor.
