Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I adamantly oppose measure SB210. Oregon has had mail-in voting for nearly 30 years and having this accessibility to voting enables folks who may be disabled, who live in rural areas, who have rigid work schedules or family life, and would not otherwise be able to make it to an in person location for voting taking away their right to participate in elections. Taking away accessibility to vote by mail will only harm the voter. This measure is geared towards those who are of an elitist status and are able to easily make it to in person locations at a convenient time for them. This measure is made so that the poor, the disabled, the marginalized communities, the overly scheduled people, would not have access or ability to vote. This is just wrong. I OPPOSE MEASURE SB210!!!!
