

Submitter:

Derek Lindridge

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose this measure and demand this measure be dismissed and abandoned. Mail in voting has placed Oregon constantly among the highest voter turnout in the nation, a key necessity in a functioning democracy. The only reason to even consider this measure is to abandon that principle, abandon the people of Oregon, and abandon the principles that made the United States of America a world leader. The only people who can support this measure are those that must acknowledge that the only way they can win elections is through voter suppression and we can not allow that to happen here.
