

Submitter:

Kellie Cantwell

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Testimony:

Stealing our ability to vote by mail would be a giant step backwards . Those with disabilities, single parents, farm workers, wildland firefighters, the working poor, the elderly, people with neurodivergent brains , etc. would all experience undue difficulties being forced to vote in person, or wouldn't be able to vote at all.

But that is the point, isn't it?

Not only is this bill discriminatory, but it is blatant voter suppression.

I thought Oregon was better than that.

The thought of this bill passing makes me sick.

I OPPOSE!
