Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly disapprove of getting rid of mail-in voting. It solves so many impediments to voting: weather, illness, time off work, etc. It has worked without issue for 20 years in Oregon, is safe and secure. There is absolutely no reason to change the existing system except for political reasons, specifically to make it harder to vote which benefits Republicans.

Keep the mail-in voting system intact as is! It stands as a national example of proof that mail-in voting works and is far superior to in-person voting.
