Measure, Appointment or Topic:

SB210

Testimony:

Stealing our ability to vote by mail would be a giant step backwards. Those with disabilities, single parents, the elderly ,farm workers, wildland firefighters, the working poor, people with neurodivergent brains , etc.would have a difficult time getting to the polls. For some, it would be impossible.

But that's the point, isn't it?

This bill is not only discriminatory , it is blatant voter suppression, and it is anti-democratic.

I thought Oregon was better than this.

I vehemently OPPOSE!
