

Submitter: Patti McConville

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

In person voting ensures that the person who is voting its actually the registered voter.

Verifies valid voters

Saves money

Almost all other modern countries vote in person on one day with id

We need id everywhere....except to vote

There are over 200 people registered to vote at a ball part in West Salem. Where do there ballots go?

We went to our country clerks office to get our ballots, no one asked for our id.

Mail in voting is insecure. It does not save time.
