Senate Committee On Rules

Measure, Appointment or Topic:

SB210

There are many benefits to voting by mail or drop box. It gives those who cannot go to a standard election station, the chance to vote. Vote by mail has proven to be much more accurate, voting by mail benefits the USPS so it is a win win! Also, voting by mail gives our citizens more time to vote, there is less gas exhaust put into the environment and runoff into our watersheds, and we are safer voting in the security of our homes instead of unsafe voting stations which are patrolled by bully republican rude nincompoops.
