Senate Committee On Rules

Measure, Appointment or Topic:

SB210

First, question. Why do you want to change our mail in voting? This system is one of the fairest ways to vote..And the cost is less than hiring all the people you would need to man the polls. (If you could find enough people ). I have watched the harassment of poll workers in other states, and I don't want to see that here in Oregon. Poll workers would have to be trained, using my tax dollars. Are there people from out of the state that are trying to change this in Oregon?Are our legislators being paid to change this?

The reasons I like mail-voting. 1. I can research the info while I am voting in the comfort of my own home. No weather issues. If I am feeling bad that day or am disabled, I can still vote. 2. I don't have to worry about getting harassed at poll. 3. it cost me nothing to vote. I don't have to spend money driving some where and don't have to wait in long lines. 4. I have plenty of time vote. It does affect my work schedule or other appointments.

I have been a poll worker and have seen firsthand how the process works. Is fair, safe voting. Signatures are checked. If something goes wrong with your ballot they call you right away. PLEASE LEAVE THIS FAIR AND SAFE VOTING METHOD ALONE...Sherrie R Taylor
