

Submitter: Tania Neubauer

On Behalf Of:

Committee: Joint Committee On Ways and Means Subcommittee On
Natural Resources

Measure, Appointment or Topic: HB5009

We need you to protect fish and frogs in wild forests by passing this bill. they are even more in need of protection than animals on public lands. If you do nothing, protection for these crucial creatures on private lands will vanish by 2027. Keep threatened frogs from going extinct in our state! Pass this bill!
