Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I very strongly oppose removing mail in voting. Mail in voting promotes greater voter turnout and allows ample time to research each candidate in detail and allow voting without risk of intimidation that is now quite prevalent. There if I can make the largest financial decisions of my life (see getting a mortgage, buying a car, etc) through means that are not in person then there is no good reason I can't vote for my representation in the same manner.
