

Submitter:

Mary van Enckevort

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As an Oregon resident for 27 years, residing in Salem, I have voted in every election primarily based on the fact I can do so by mail. My understanding is there is a very low margin of error perhaps even lower than that of other states that use voting in person.

This proposed change is not based on facts that I can find but rather on the whimsy of the current Federal administration to further manipulate outcomes in their favor.

Please vote NO.

Sincerely,

Mary van Enckevort
