SB210

I have lived in Oregon my entire life. I have voted in person once when I first turned 18. I voted for mail in voting when it was first on the ballot. Now I am a working mom of small children with a husband in the military. I spend most of my time parenting alone as he spends a significant amount of time out of the home. It would put highly unnecessary burden on me to have to vote in person. I feel voting by mail has ensured that I am an educated voter and it also means I am more likely to vote as I have the time to do so. Oregonians have one of highest voter turnouts and I know plenty of people who do not want to vote in person. Please consider how many voters approved this bill last time, 20+ years ago.
