Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

The Oregon mail-in-ballot system has been a highly celebrated success for democracy. It makes voting accessible to a far wider range of citizens than in-person voting. Oregon's mail-in-ballot system has been upheld as a model for the rest of States to use. To insist on in-person voting on Election Day will limit the number of people who can participate in our democratic voting process and is therefore anti-democratic. Please reject this measure and leave voting in the current form, serving as a model for the rest of the country how to make every vote count. Protect our Democracy by protecting voting by mail.
