Senate Committee On Rules

Measure, Appointment or Topic:

SB210

As a rural Oregon Voter, keep your fascist fingers off of my voting rights! Mail in voting is more secure than in-person voting and counted more accurately (don't believe me? Look it up; the facts don't care about your feelings, theories, or opinions.)

The only reason Republicans want to ban vote by mail is because when the majority votes, Republicans and their failed policies lose. Don't believe me? Check the data, Republicans were in favor of mail voting in the 80's before it became the law and only turned against vote by mail after losing elections in the years after mail voting was allowed in the great state of Oregon.

Removing vote by mail makes voting more difficult on people with disabilities, the elderly, and (let's be honest) EVERYONE WHO WORKS FOR A LIVING! people should not be bartering for time off with their employer to practice their rights. Anyone who disagrees is merely, I suspect, attempting to practice voter suppression thinking if they limit the total number of voters they will have a higher chance to win elections.

This attempt at undoing helpful progress and voting rights has been brought by bad faith Republicans who are rushing to get in line with an unconstitutional executive order that is not worth the paper it's printed on. Any citizen who understands the U.S. Constitution knows that voting in a state is set by the state and any argument otherwise is gaslighting in the highest order.

Keep our Elections fair, Keep our Elections free, Keep our Elections secure, and the best way to do that? KEEP OUR ELECTIONS BY MAIL.
