Measure, Appointment or Topic:

SB210

As a lifelong Oregonian and taxpayer, I heavily oppose SB 210. As a disabled Oregonian, the requirement to go in person for pulling would a danger to my health and safety. It would prevent me or make it more difficult for me to exercise my constitutional right to vote in elections as a legal US citizen. This would affect millions of Oregonians, including the elderly, the disabled, the underrepresented, and in general the Public, who have difficulty getting days off to vote. This is in fact, voter suppression in a state that has a long history of voter equity by allowing mail in voting. Upending that would be affront to voting rights in our beautiful state. Please oppose SB 210!
