I am writing in OPPOSITION to HB 3062. Oregon ranks close to the bottom of all states for job creation and for being an unfriendly climate for businesses. HB 3062 makes large-scale industrial developments, which attract companies that provide traded sector jobs, close to impossible. Making a building sit up to 1000 feet from a "yet to be defined" sensitive land area is an insane policy and would be another nail in the coffin for industrial development in Oregon.
