Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail should be a standard in the whole country. It allows people who are unable to take the day off to vote and have a voice in our government. It allows people who are disadvantaged in any way to have their vote be counted. Those with disabilities. Those that are not able to vote due to financial or other constraints. It also helps with voter intimidation at the booth or close to polling places. It helps give access to many that simply can't go vote on that date. I strongly oppose SB210. Thank you.
