SB210

The MAGA Republican traitors had better keep their hands off of our voting system. Their right to sabotage the voting rights of their constituents is not recognized. Any attempt to do so will be seen for the signal of contempt that it is, and the citizens of Oregon will NOT stand for it.

You represent your constituents; you do not rule them. If they fail to understand that fact, then they should consider: ALL of them are replaceable, and the citizenry will be keeping it in mind for the next election.

You know what we want. Remember your constituents' interests and vote accordingly. This is non-negotiable.
