

Submitter: Joel and Laine Schipper
On Behalf Of:
Committee: Senate Committee On Rules
Measure, Appointment or Topic: SB210

Oregon has a long and successful history of mail-in ballots for elections. This system enables all Oregonians to participate in our most significant right -- free and fair elections -- without the burdens imposed by missing work or having to find child care or any other obstacle. No significant fraud has ever been detected. Requiring in-person voting is what authoritarian regimes do to intimidate voters and suppress the overall vote. A far better alternative would be to require compulsory mail-in voting so every citizen would vote. Please do not take away our cherished right to mail in our ballots.
