SB210

Strongly opposed to this measure. As someone, because of age and health, who would not want or be able to stand in line for voting, I depend on mail-in voting. I am not alone. There are many my age or older who depend on this.

I also caution the use of anecdotal statements without actual evidence of voter fraud. My-housekeeper's-brother's-niece's-boyfriend's-mother said is not evidence.
