Measure, Appointment or Topic:

SB210

The existing system is functional.

It gives voters a chance to review and research candidates and bills at their leisure.

Ensures that voters can participate no matter their life schedule. Would this proposal enact a state holiday to ensure we do not disenfranchise people that work during voting hour or are otherwise unable to attend a physical poll?

This change would increase operational costs, disenfranchise voters, and limit voter knowledge.

As someone originally not from Oregon and used to in-person ballot voting, I believe this system is superior in many ways. This proposal is nothing more than grandstanding and a malicious attack on our democracy in the state.
