Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I urge you to reject this bill attempting to claw Oregon back to the times of voter suppression. This is clearly a attack on our civil liberties and an attempt to reduce those who can have a say in our state government to only individuals who have the ability to take a day off to vote. Folks with kids may have to balance voting over having PTO to care for their sick kids, if they have PTO at all. This is part of the ultra-conservative playbook to disenfranchise the working class Americans and Oregon, and we must make a stand against it.
