Vote by mail has been the proven standard of Oregon elections. I believe that in person voting would disenfranchise poorer voters as time is money, and those less well off among us have less time to stand around in lines to submit a vote. I also believe that there would have to be significant investment by the state to overhaul the voting system to support an in person vote which would be a waste of money and time. I say this as a young voter, that I have never missed out on an election partially because of this system being so convenient and voter friendly. Don't change Oregon's elections system to kowtow to the wishes of the authoritarian regime currently assuming the presidency and their insane base.
