Measure, Appointment or Topic: SB210

I am writing in opposition to SB 210. As a mother of two young children and an RN that also works and is married to a first responder (Firefighter) our schedules are very busy. Mail in voting has allowed me to take the time necessary to review the measures and fill out my ballot in my own time while managing a household and career. In person voting would be very difficult for us because of our childcare and work schedules. I also have a disabled mother who is unable to travel independently. She would not be able to go to in person voting because of her inability to wait in long lines due to discomfort and pain. I value mail in voting because it allows all of our community, from the busy parent to the disabled citizen the opportunity to vote safely and effectively. Please do not allow this to pass, I strongly oppose making in person voting on the date of election the standard method for conducting an election.
