Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Voting by mail assists us as we have a spectrum child and I have a disability. It has always worked and Oregon should continue to do right by the ones serving in the military, disabled, elderly, those without transportation, and those who will personally be affected by such a decision. Voting by mail is a right EVERY PERSON ELIGIBLE TO VOTE has here in the state of Oregon and it should remain the right of the people to have a free and fair election. Voting by person would in fact make it more difficult for many voters. Making our vote in person could very well lead to gerrymandering and cause an upset in the opportunity we all have a right to decide who we elect to lead us. Every last registered Oregonian deserves the right to VOTE BY MAIL and in removing that you are taking away the voice of the people. Keep vote in by mail. Thank you.
