Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I'm a long time Oregon resident, and strongly believe that voting by mail is safe, convenient, and works with modern lifestyles. We want to make sure people vote instead of wasting time standing in line. We've never had problems with fraud so we shouldn't pretend that that is now a problem. I work with people with disabilities and don't have extra time. Please oppose this measure for Oregon. Thank you.
