Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Hello. I vehemently oppose this proposal, as it places an unnecessary burden on ALL Oregon citizens, but especially those who are caring for young children, working multiple jobs, disabled, elderly, those with mobility or transportation challenges, as well as those in the less-populated rural areas of our beautiful state that don't have local voting places conveniently located. Why in the world, other than to cow-tow to the wave of bigotry and discrimination that is sweeping the Republican Party, would Oregon change our excellent current voting system? Don't do it! Keep our great current voting system that includes all Oregonians! Thank you
