Measure, Appointment or Topic:

SB210

I am strongly against this being the new standard for voting in our state. Mail in voting only makes voting more accessible and equitable for everyone. Removing this method of voting sends the message that these decisions will be based on not what the public strongly prefers, but rather what will benefit their preferred outcomes. Additionally, it speaks volumes to remove this form of voting, essentially saying that those who have barriers to getting to a voting booth (those who live in rural communities, those with disabilities, etc.) do not matter as much as those who can vote in person.
