

Submitter: Jennifer Lippert

On Behalf Of:

Committee: Senate Committee On Rules

Measure, Appointment or Topic: SB210

Dear Senators,

I believe that mail in voting should continue. It allows all Oregonians-including those who might find going to polling places difficult like working families, parents with young children, rural residents, and residents who have difficulty with transportation-to vote when they have time, from their own homes. Oregon has a proven record of tracking its legal voting citizens that's worked for years. We don't need this change.

Sincerely,
