SB210

SB 210 is appallingly discriminatory against the elderly, the disabled, and people who are unable to take leave from work for financial reasons or fear of losing their jobs. My parents were proud voters until their deaths at ages 89 and 91. They would have been unable to vote the last couple of years of their lives if they would have had to vote in person. Many people, democrats and republicans, will be unable to vote if this bill were to pass. Voting by mail has been inclusive and effective. This proposed bill is unfair, unkind, and unnecessary.
