Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I understand there has been some discussion of repealing Oregon's vote by mail system, and I would like to express my fervent disapproval of this idea. I am a lifelong Oregonian and vote by mail became our standard process within a couple years of my 18th birthday. From what little I remember of the process of going in person to the polling place, it was time-consuming, cumbersome, and completely unnecessary. Every time I cast a ballot (which is in every single election) I am grateful to have the opportunity to do so in my pajamas at my kitchen table. I can't fathom any reason for going back to the dark ages in this realm or any other. Please fight for Oregonians' right to vote by mail no matter what. Thank you.
