Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Making in-person voting the standard will increase the difficulty of voting and prevent more voters from being able to make their voice heard. Oregon is a leader in mail-in voting and consequently a leader in voter turnout. Until Election Day is a widely recognized holiday and everyone has the day off, forcing in-person will only serve as - unintentional or not - voter suppression for those less able to put time aside to vote. Please do not proceed with this.
