Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose the proposed legislation to require in-person voting in Oregon. For decades, mail-in voting has been a secure and convenient option for Oregonians, allowing them to research their choices and cast their ballots in a way that fits their schedules. There is no widespread voter fraud in Oregon—our mail-in system has been tested and proven to work effectively.

I urge you to protect voter access by preserving Oregon's vote-by-mail system. It is a model of accessibility, security, and efficiency, and it ensures that every eligible voter has a fair opportunity to participate in our democracy.
