Measure, Appointment or Topic: SB210

Im deeply opposed to SB 210 as it seeks to take away the abillity to participate in elections from poor, disabled, elderly and rural individuals. As well as balloon costs and weaken election integrety. Oregon has one of the if not best voting system in the entire nation and this proposal seeks to destroy that and put in forth a far worse system. We as Oregonions believe in honest, fair, equal elections and thats exactly what have in place with mail in voting!
