SB210

Our voting system works well, it can be tracked, checked and double-checked. There has been no problem with error or fraud. There is NO good reason to change it, only bad intentions. This is a blatant attempt to suppress voting. To disenfranchise voters who would have difficulty getting to a polling place and waiting in long lines (the elderly, the handicapped, and people who WORK, for instance), and scare off those who might be afraid, in these times, of being threatened, harassed or detained. Even perfectly legal, born-in-the-USA citizens are being grabbed off the street right now. Shame on you, David Brock Smith. You do not have the best interests of Oregonians at heart.
