SB210

I strongly support SB210. With our most recent election bringing to light thousands of illegal aliens on the voter rolls, some of which voted, plus ballots being mailed to dead people and people that have moved a long time ago, we really need to restore confidence in our election system. Going back to voting in-person with ID is an excellent idea. Frankly, voting at the kitchen table was convenient at first, but not worth it anymore. I just don't trust our election system and I know many others that feel the same way. We also need to clean the voter rolls. Let's make our election system more secure and restore confidence in it. Please vote YES for SB210.
