Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I strongly oppose SB 210. At this moment, Oregon is one of the leaders in our country for enabling voting access. Removing this method and forcing in-person voting will disproportionately impact those with the least resources or ability represent themselves, including folks who are disabled, or who can't afford to take the time off of work. These are precisely the folks who's voices are most critical to be heard.
