Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Mail-in voting allows people to research the candidates and make an informed vote, it increases turnout and allows a broader spectrum of voters to participate. There is no evidence that mail-in voting increases election fraud. Furthermore, many people cannot take time off work (either paid or unpaid) or lack transportation to get to polls in person. A return to in person voting is an absolutely backwards move which I adamantly oppose.
