Measure, Appointment or Topic:

SB210

I absolutely oppose repealing our mail-in voting system. The mail in process has long been proven to be secure and reliable, and it makes the opportunity to vote accessible to ALL Oregonians, including those who might have difficulty reaching polling locations for reasons of disability, work conflicts, or lack of transportation. Any effort to eliminate mail in voting is an effort to exclude the legitimate voters most likely to face obstacles to in person voting.
