

Submitter:

Harold Whiteley

On Behalf Of:

Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

Years ago I was at Lane County Elections office to change my address. The person ahead of registered and when I was finished and leaving I saw him outside the office on his phone. He returned and I followed him back in and watched. He registered again, left, made another phone call and returned to register again. 4 in all in the time that I was there but he was not stopping then. All 4 were Democrat registrations. All helped by the same man at the counter.

I strongly support voter ID and in-person voting. This system has never made me comfortable and much less so over the years.
