SB210

Please keep mail in voting accessible to citizens. Mail in voting significantly improves access for constituents, especially for working class folk and parents. If you research actual cases of voter fraud by mail in voting, you will find it is so extremely uncommon as to be irrelevant (2012 study found only 10 cases over 12 years). It would be short sighted, asinine, or dishonest to reduce voting access for tens of thousands of people, because of voter fraud making up less than 0.0000001 of overall votes. Please support real and legitimate voter access by opposing this measure to dismantle mail in voting.
