Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This wonderful state has been doing mail in ballots longer than I have been alive. As a lifetime resident of the state, and someone who works part of the year across the country, I have multiple friends who are lifelong residents who like me work around the state as linemen, firefighters, and foresters. Removing mail in ballots is an attempt to "fix" a complete nonissue and will directly negatively impact myself and others. Do not pass this bill, it doesn't even deserve the tax money you've already spent arguing for it.
