Committee:

Senate Committee On Rules

Measure, Appointment or Topic:

SB210

I absolutely LOVE voting from home. It makes it accessible and easy to do on my own time. I sit down with voters pamphlet and all of the local newspapers, read up on each candidate or issue, and then make an informed vote. Please DO NOT TAKE IT AWAY FROM US!! If election security is an issue, then address the specific issues. Make it more difficult for everyone to vote is NOT a good solution! I had to vote in-person when I lived in Georgia and it massively sucked! Standing in line for an hour, wasting my time, with no information about the issues other than biased advertisements and propaganda. Also I can't imagine having to do that now that I am disabled! MAIL IN VOTING IS THE WAY OF THE FUTURE! Lets move FORWARD, NOT BACKWARDS!
