

Submitter: Janine Becker Winchester  
On Behalf Of:  
Committee: Senate Committee On Rules  
Measure, Appointment or Topic: SB210

Regarding the SB 210, I am in opposition of returning to in person election sites based on the following issues; when we were able to vote in person, I had 3 young kids, worked until 1630, then had to get kids picked up and bring them with me in tow so I could do my due diligence and vote. We stood in line, I didn't have the luxury of fully reading the literature, as I can now do & take my time to thoughtfully complete my ballot at home, take the completed ballot to the white mail box for pick up by county staff for tabulation.

Now, the concerns are still valid if SB 210 goes through requiring in person voting because work schedules are not always lined up with voting times, potential of not getting to site in timely manner on Election Day. And a reference to think about is with our Veteran's who seriously take the voting privilege to heart. Having been a VA staff member whom visited home bound Veteran's, this change of the SB 210 would become burdensome for those who served their country. Sounds as though selective voting may be the underlying theme with this change. Please squash this SB. In Oregon we have maintained a high integrity of the elections held by allowing our current system of Mail in ballots.
