Senate Committee On Rules

Measure, Appointment or Topic:

SB210

This bill will disenfranchise thousands of Oregonians. My mother was unable to travel to the polling place this last election because of her health. But she still had a vote because of mail-in balloting. This will keep thousands of Oregonians from voting.

People who work long hours on the one day available for voting will be disenfranchised. Before wide-spread mail-in voting, employers did not give people the opportunity to get off of work to vote.

With mail-in balloting people have the time to read the pamphlet while voting. Allowing informed people to be informed while voting.

There have been no wide spread fraud in mail-in ballots.

Ken Pinard
